VERITAS

HPSI Purchasing Services of Ohio and Veritas LTC, Inc. have entered into an agreement that may revolutionize the way Long Term Care Facilities view their pharmacy partnerships. Veritas is an independent company, located in Waynesville, Ohio, that specializes in innovative solutions for Controlling Pharmacy Costs and Managing Prescription Utilization through educating, training, and providing each LTCF with a unique, "in-house", cost-saving, pharmacy program, coupled with the assurance that they will receive consistent, accurate, pharmacy pricing validated at the point-of-dispensing, through real-time, on-line claims adjudication by an independent expert.

Initially, the role of VERITAS, is focused on identifying the LTCF's specific needs, through **retrospective billing audits and contract benchmarking**. Completing this function naturally leads to an expanded scope of services provided through PROACTIVE RX which includes the processing of pharmaceutical claims and a wide range of other "in-house" clinical and health-related services. This newsletter does not allow space for a full explanation of all the benefits associated with this new HPSI Vendor program. Please call the HPSI office at 937-415-0527 for further information or contact Brian Smith, President & CEO, Veritas LTC, Inc., Toll Free: 1-866-897-0536, Cell: 1-513-240-2056. You can visit their website at www.VeritasLTC.com
